Complete your degree in just three years

100% progression guarantee

International Year One
Business-related courses in the UK
2016-2017
What is the International Year One programme?

The International Year One programme offers intensive academic preparation, and a fast-track route to the second year of an undergraduate degree at the host university. This is different for our Scottish university partners, where the programme is called International Diploma, is equivalent to studying year 2 of a Scottish undergraduate degree, and allows you to enter directly into Year 3 of an undergraduate programme.

WHAT WILL I GAIN FROM STUDYING THIS PROGRAMME?
The International Year One programme is a full-time academic programme that offers you the opportunity to:

- improve and gain confidence in your English language skills in preparation for undergraduate study
- increase your knowledge of academic theory to enable advanced entry to year two of an undergraduate degree
- develop the necessary study and research skills for undergraduate study.

WHAT IS SPECIAL ABOUT THE PROGRAMME?
- A quality-assured university programme.
- Multiple start dates.
- Complete your degree in just three years.
- University-style teaching with high contact hours and small class sizes.
- Extensive English language support.
- Access to university facilities.
- A conditional offer of a place on the second year of an undergraduate degree at an appropriate university.
- Regular assessment to monitor your progress.
- Professional support and help with university applications.

WHAT IF I NEED FURTHER SUPPORT WITH MY ENGLISH LANGUAGE?
The Extended International Year One programme is designed for students who will benefit from additional time to improve their English level before starting on their academic studies.

Lasting four terms, the programme incorporates a term of English language tuition at the beginning of the course, where you will cover areas of academic English such as:

- finding sources of information and referencing them
- locating key information in a text
- structuring an essay
- giving presentations
- how to listen actively in lectures and take effective notes
- business-related language.

All of these topics are covered using business-related case studies relevant to the academic modules. Once you have passed the initial English language component, you can progress to the next stage of the International Year One programme.

HOW WILL THIS PROGRAMME HELP ME TRANSITION TO UNIVERSITY?
We understand that you may be nervous about going from INTO to university, so we support you and prepare you for the move.

- Progression Officers - meet with you one-to-one, organise engagement events, and take you around the relevant Schools of the University to familiarise you with your next study environment.
- Freshers’ week - an event at the beginning of the first term to help you make friends, sign up for clubs, and get to know the campus/city centre.
- Sample university lectures and seminars - either during university open days or in specially arranged sessions, just for you.
- INTO lessons mirror university-style teaching, using: seminars (a small group of students and teacher); lectures (a larger group of students and teacher); tutorials (one-to-one discussion with the teacher); workshops (hands-on activities in small groups); and study clinics.
- Course material - including real-life case studies and textbooks - are often the same as those used by a Year 1 undergraduate student, so you will have gained the same skills.

You will be moving on to university with all the new friends you made during your time at INTO, and will have gained the skills and confidence to make plenty more.

“The teaching team is formed by professional elites and I am glad that I was taught by those specialists, who have in-depth knowledge of the subject. Learning in small class sizes, I was able to keep pace easily.”

Ker Soon, Malaysia
One programme: university preparation and a university degree

- Undergraduate Degree with Integrated International Year One
- Undergraduate Degree with Integrated International Year Two
- Master’s with Integrated International Graduate Diploma

Benefit from combining your study plan into one programme:
- Same amount of time as a regular university degree
- Saves money - you only need one visa for the full duration of study

Integrated programmes are designed for international students who have the potential to succeed but do not meet the requirements for direct entry to an undergraduate degree at the University of Stirling.

Start your journey at INTO University of Stirling: www.intohigher.com/stirling
